

# HUMISTAT®

HUMIDIFIERS FOR MUSICAL INSTRUMENTS

## Adjustable Humidifier

If you are a musician, your instrument is probably one of the most significant things you own. So, naturally, you don't want to waste your money on costly repairs caused by warping, shrinkage, peeling, splitting or cracking. That's why we created the only adjustable humidifier on the market today, designed specifically for musical instruments. Its unique, patented design gives you complete control of the humidity in your case so you won't have to worry about instrument damage.

Our humidifiers are affordably priced and have a three-decade reputation for superior performance. We also offer the Humistat "combo," which comes with both an adjustable humidifier and a hygrometer to check the humidity level of your case at any time. HumistatS is the quality choice of music professionals.S

Hundreds of thousands of musicians -- professionals, students, and amateurs alike -- use HUMISTAT® in their instrument cases.

### **HUMISTAT® humidifiers are available in two sizes:**

The NO. 1 for violins, violas, clarinets, oboes, mandolins, ukuleles and other small instruments.

Ideal for:

- Violins
- Violas
- Mandolins
- Ukuleles
- Piccolos
- Fifes
- Flutes
- Clarinets
- Oboes
- English Horns
- Recorders
- Pennywhistle

The NO. 3 for guitars, cellos, basses, bassoons, bagpipes, accordions and other larger instruments.

Ideal for:

- Cellos
- Basses
- Bassoons
- Guitars
- Accordions
- Bagpipes
- Dulcimers

Both HUMISTAT® models feature an easily adjustable regulator-ring to assure perfect moisture control. Both models can be securely mounted in your instrument case, or simply placed inside a pocket of the case. For added peace of mind, consider a HUMISTAT® HYGROMETER. Monitoring your instruments' moisture needs has never been easier! There is only one brand of humidifier with the HUMISTAT® name and quality.
